

Tomalong “Anything Country”

For the Christmas Season, at **Tomalong**, we are getting in early to avail our customers of the very best in Corporate Christmas Trees.

The staff is 3m high by 2m wide. This tree is approximately 3.8m x 2.6m wide.

The handling and erection of these trees is no mean feat.

Details of the vehicular access to the venue, the route from the vehicle to the final location, the type of floor surfaces along the path the tree needs to be carried, are some examples of what is needed to be clarified in order to complete your quotation to your client.

Bearing in mind that we are still to experience some months of additional growth, we have attempted to illustrate the size of just a few of the more spectacular trees which are available.

We are confident of our ability to supply your needs in whatever size, shape and quantity of trees you may require.

Early orders will obviously be of benefit.

This tree is approximately 3.2m x 1.9m wide.

Call **Greg Thomas on 0417 927 606** to discuss your Christmas requirements.
